## Flame retardant, anti-static hi-vis rain bomber jacket

The Jibou is a multifunctional bomber jacket that protects you against many hazards. The bomber jacket is on the inside completely lined with a fixed flame retardant cotton lining. The outer fabric is a strong and high-breathing water repellent and coated fabric which makes the jacket wind and waterproof. For extra protection against the cold and the rain it is possible to narrow the sleeves, to zip in a fleece lining and attach a hood (both to be bought separately).

# Flame retardant, anti-static hi-vis rain bomber jacket
