

# MEASURE YOUR FAVORITE GARMENT

If you are unsure which size fits you, measure your favourite garment at home and compare it to the garment measurements in the table above. Choose the size that fits best. Below you will find descriptions of how we measure our garments.

**Keep in mind that even industrial sewing is a craft that is carried out in many steps, therefore there is always a tolerance for measurement deviations.**

## HOW TO MEASURE (MEN)

### **A: Waist**

Lay the trousers flat. Measure the width of the waist.

### **B: Inside leg**

Lay the trousers flat. Measure the inseam of the trousers, from the crotch seam to the end of the trouser leg.

### **C: Inside leg**

Lay the trousers flat. Measure the inseam of the trousers, from the crotch seam to the end of the trouser leg.
